Help to remedy the lasting
inequity of the War on
Drugs and its negative
impacts on Seattle's Black
community

SHARE YOUR IDEAS

The City of Seattle is working to create a cannabis equity program. Let us know what resources for individuals arrested for marijuana possession should look like. We want to hear from you.

Ideas based on community feedback

- Resources for individuals with marijuana convictions
- Investments in community initiatives, such as removing misdemeanor and possibly felony marijuana convictions
- School programs that offer resources to students affected by marijuana
- Addiction treatment programs
- Housing assistance
- Clothing, job resources, and training

Black people made up 8 percent of those arrested for marijuana possession prior to legalization but were only 3.4 percent of the state's population.

Blacks were arrested at 2.9 times the rate of whites although cannabis use by both groups was nearly equal.
